Dear Macdonald! ~~at~~ I do not doubt you received my letter addressed to you a few days ago to Penzance. Today I got your good letter showing me that at the time of writing it you were stayed at Hartford. Pray, search for my Penzance-letter, its content is very important for my resolution in the lectures-question. I cannot work now much. This morning I finished my academic ~~essay~~ (lecture Memorial) for the Count Rumor (in Hungarian) save some details, which cannot be written but near the library; a hard work for me comprising about 3 printed sheets. Now I will condense my thoughts about the Kalmegh questions. The Lady-question is settled in Mahometan Eschatology. Every man will find his wife de predestination in the Djenn. Also the Djahannum have its feminine inhabitants. Thanks for the station. I will advertise Jacob. Justly a very interesting 6th volume is out of press. If I shall write the lectures I must get absolutely dispensed from Hastings on your advice. I got from Cairo a polemical treatise in Arabic against the Matricide and Talmudism of Robertson Smith. (Author W. J. W. J. W.) Yours faith fully I Goldziher
